

Greener and Healthier Lifestyle

Consultation *Your Local Greenspace*

Selby Neighbourhood Plan

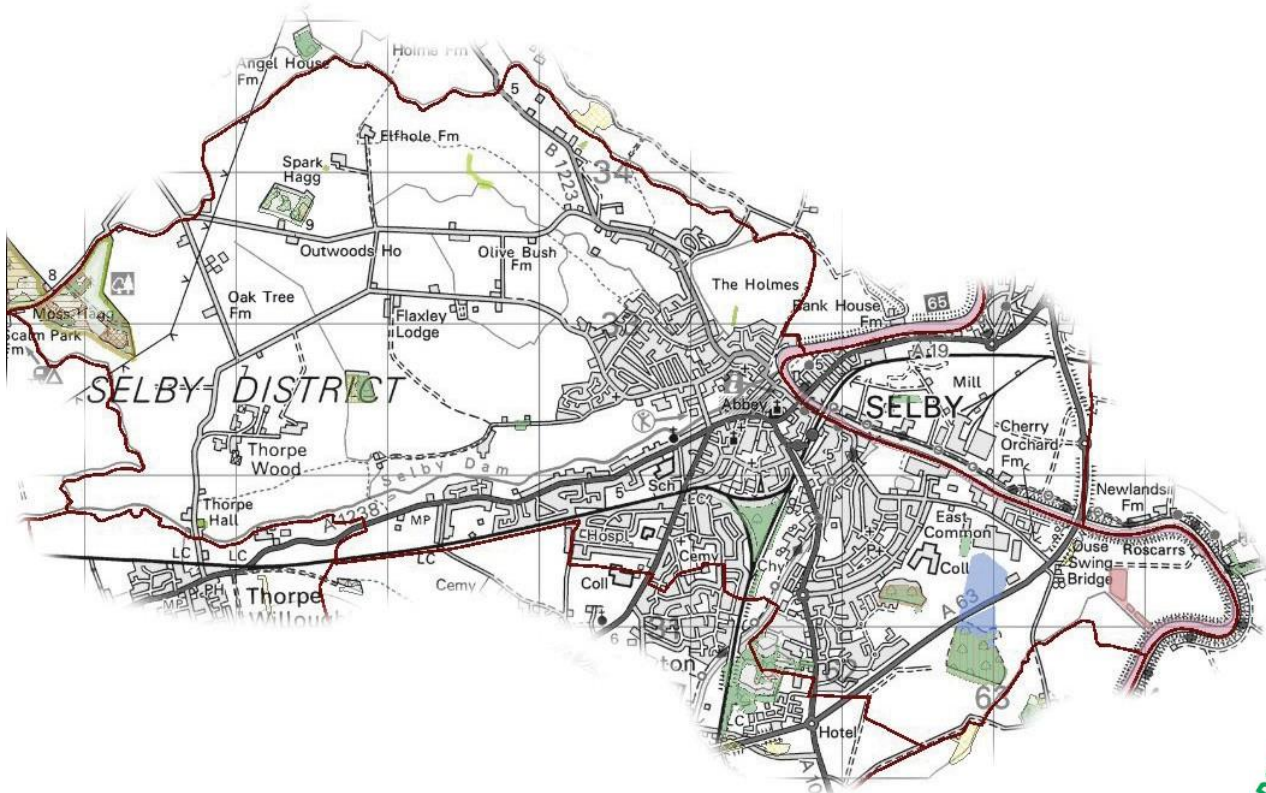

Selby Town Council feel that Selby Town is in need of more green infrastructure. We are working in consultation with Groundwork to produce a Neighbourhood Plan.

We think there is a good case for more parks, more access to natural areas, more playgrounds and more cycle routes and paths. We also think there should be improved signage and easier access to the existing green infrastructure.

We want Selby Town to have an environment that helps people to be more healthy and lead better lives as well as attract local jobs and have better facilities.

Please help us by describing your local Green areas and any areas of water you know about in Selby Town area.

Please complete as many sheets as you like and return by 21st July 2017 to the Clerk at the Town Hall k.mann@selbytowncouncil.co.uk or diana.brown@groundwork.org.uk

Your Name					
Please describe a park or green space or water side you know well using the prompts below.					
Name of area					
Address					
		QUALITY			
	Brief Description (circle which apply)	Bad	Poor	OK	Good
