

Welcome to Selby Market

The heart of the community

Selby market has historic roots, beginning in the days of the Benedictine monks when the market was held within the Abbey. The open-air market as we know it today grew from the early 14th Century when it was moved to Selby Market Cross from the Abbey.

Today, the market has developed enormously from its early days but still retains the core values that make it great. Selby market exists to serve the community, providing a social and bustling atmosphere for people of any age and background to enjoy.

Selby market is an integral part of the community and deserves your support! Come along every Monday for our regular market day and also visit our Farmers Markets held on the first Wednesday of each month and you'll be sure to find some high quality products from honest, down to earth market traders!
